Nikita Rawani

7999981341 | nikitarawanisdl@gmail.com | Indore, Madhya Pradesh

Experience

Digiprima Technologies | Indore, Madhya Pradesh
Python Full Stack Developer | 05/2024 - Present
CricRatings – Cricket Rating Web Application

- Constructed an innovative cricket ratings system with Django technology, enabling real-time evaluations of teams and players, notice increased participation from users who rated over 10K matches in the first quarter alone.
- Designed and implemented an admin dashboard, enabling efficient management of teams, players, matches, and ratings, with batch upload functionality for streamlined data entry.
- Engineered an interactive data visualization module, providing real-time insights into player performance and rankings, leading to a 30% increase in user engagement. Optimized backend performance, identifying and resolving key issues that led to reduced downtime during critical updates.
- Integrated Django's admin panel for enhanced client management, ensuring seamless control over cricket rating functionalities.

Success Yatra – RESTful API Development

- Developed and enhanced RESTful APIs for Success Yatra, a web/mobile platform offering various services, using Django REST Framework.
- Designed and implemented new API endpoints to support additional platform functionalities, ensuring seamless data exchange between frontend and backend.
- Optimized and modified existing APIs to improve performance, scalability, and response times, leading to a more efficient user experience.
- Integrated JWT authentication to secure API endpoints, enhancing data protection and user authentication.

Hanabira Designs | Remote
Frontend Developer Internship | 11/2023 - 02/2024

- Developed responsive web applications using HTML, CSS, JavaScript, and React.js.
- Improved UI components and optimized website performance for better interactivity and fast load times.

Annex Solution | Hyderabad, Telangana
Intern | 03/2023 - 06/2023

- Assisted in developing web applications with Python, handling backend tasks and API integrations.
- Optimized code for enhanced functionality and performance.

Technical Skills

- **Programming Languages**: C++, Python, JavaScript, SQL
- **Web Development**: HTML, CSS, React.js, Django, Bootstrap, Tailwind CSS
- **Database Management**: SQL
- **Tools & Technologies**: Git, Selenium, Web Scraping, REST APIs
- **Operating System:** Linux, Windows

Education

Rani Durgavati University | Jabalpur, Madhya Pradesh
MCA | 09/2023

Pt.SN Shukla University | Shahdol, Madhya Pradesh
B.Sc. Electronic | 06/2021
